

Portray the performance of the Institution in one area distinctive to its priority and thrust within 1000 words.

Response:

The main vision of the college focuses on moulding and empowering students in the pursuit of knowledge, values and social responsibility and also on helping them to adapt to the changing scenarios as time evolves. One distinctive approach of the college is skill development and the college is looking at this as one of the thrust areas as envisaged in the vision.

Since the academic session 2015-16, the college has been successfully running B Voc Degree Programme in two trades:

1. Food processing and engineering
2. Tourism and hospitality management

After due assessment of skill component by the Sector Skill Council for Food Processing and Hotel Management – FICSI, New Delhi and THS – Gurgaon, Manipur University gives Diploma, Advanced Diploma and B-Voc Degree Certificates to those students who have completed one year, two years and three years respectively. The Vocational Department of this college has organised one Food Mela in the campus itself and it was the first of such kind till date. All the colleges of Manipur having Vocational Courses participated in the Mela and many industries also took part in the same.

Students take up internship and hands-on-training in reputed industries like Thangjam Agro Industry, Classic Hotel, Imphal and other Milk Producing Industries. These generate excitement in the young minds to produce innovation and thus laying the stones for entrepreneurship. Some students have got placement in reputed hotels, hospitals etc. and even some have started their own entrepreneurships on food processing.

During 2017-18, another diploma course on food preservation technology for one year was introduced in the college as a vocational course on skill development under RUSA. Participation by these vocational students at some state run annual exhibitions like Sangai Festival, Shirui Festival, etc. inculcates entrepreneurship in those students. Further the college opened another B-Voc degree course in the trade - Yoga and Nature Cure during the session 2019-20. For opening ITEP, Thoubal College has been approved by the State Government after due permission from NCTE, New Delhi.

Thus, the traditional method of teaching learning has been transformed into skill related innovation process. With the implementation of NEP 2020, this college will be a very promising multi-disciplinary institute having Arts, Science, Vocational and teachers training courses.

Thoubal College, Thoubal observed the International Women's Day on 27 November, 2018 (though the day falls on 25, it was Sunday and Monday, the 26 was also fixed other programme organised by IQAC, Thoubal
